

EMC plus³-system

Item number

97450

Quality

- ✓ fine shielding fabric, synthetic, metallic conductive surface
- ✓ metallic
- ✓ ferromagnetic
- ✓ highest shielding properties for electromagnetic fields
- ✓ shielding properties 85-120 dB for frequency at 0,1 to 1,5 GHz
- ✓ strong and durable
- ✓ earthing possible, earthing required with several applications

Range of use

higher shielding requirements, residential use possible

Technical data

length x width: 50,00 m x 1,10 m

weight: 95 g/m²surface resistance < 0,01 Ω/cm²

shipped as: running meter
