

**EMC mesh****Item number****97446****Quality**

- ✓ very fine shielding grid, synthetic
- ✓ metallic shielding component
- ✓ non ferromagnetic
- ✓ good shielding properties for electromagnetic fields up to 10 GHz
- ✓ strong and durable
- ✓ earthing possible, earthing required with several applications

**Possible applications**

- application under wallcoverings
- application with paint
- application with reinforcement adhesive
- application under floors
- application on glass or between two layers of glass
- application at ventilation-grids

**Range of use**

higher shielding requirements, residential use possible

**Technical data**

length x width: 50,00 m x 1,00 m

shipped as: running meter
